What is Your Family Worth?

If your family is worth the best you can afford in house and food and clothes, is it not worth the reading as well? And the best best reading, best for boys and girls, best for men and women - is to be found in The Youth's Companion.

Of the stories alone The Companion will print nearly 300 in 1912. With all the rest of the paper thrown in, and counting all the glorious long serial stories, the subscriber pays less than a cent each. Moreover, you will look long before you will find stories so varied and interesting - stories of coolness in the face of peril, strange adventures with the creatures of the forest and the sea, moving stories of life's obscure heroisms, stories breezy with good-natured humor, quaint and curious character sketches.

Now is the time to subscribe, for you will receive free from the time your \$1.75 is received all the issues for the remaining weeks of 1911, containing the opening chapters of Ralph D. Paine's great serial story of the Boxer rebellion "The Cross and the Dragon." And there is the gift of The Companion Calendar for 1912, "The New England Coast," lithographed in ten colors and gold. Only \$1.75 now for the 12 weekly issues, but on January 1, 1912, the subscription price will be advanced to \$2.

Making Use of Street Rubbish.
At Southwark, London, and at St. Ouen, France, street rubbish is transformed into a marketable product. At Southwark all the refuse is crushed to a powder, which is sold as a manure. At St. Ouen the powder thus made, with the addition of combustible substances, is formed into a cheap fuel.

Arthur F. Drake, a union printer from Washington, D. C., is now owner and editor of the Jasper News and is publishing a most interesting and readable paper. The business men of that bustling little city should give Mr. Drake support and see that he has remuneration for the good he is doing in giving the public information and news regarding the city of Jasper.—Missouri trades Unionist (Joplin).

Is the County court house as bad as Joplin papers say it is, or is Joplin jealous of Carthage, or are the Joplin papers merely "making" copy?

A French journalist has just completed a trip around the world, going east, in 39 days, and a Connecticut man named Bidwell returned to New York last week after a 47-day jaunt around the world, going west. The best time previously made was 53 days. He is responsible for the statement that his trip can easily be made in 7 weeks at an expense of \$700.

Objection is made in New York to drowning stray dogs, for fear so many sunken barkes may obstruct navigation.—Christian Advocate.

Recognizing People.
Data have been gathered in Germany with reference to the distance at which persons may be recognized by their faces and figures. If one has good eyes, the Germans claim, one cannot recognize a person whom he has seen only once at a greater distance than 82 feet. If the person is well known to one, one may recognize him at 200 feet and if it is a member of one's family, even at 500 feet.—Scientific American.

Moscow's Municipal Pawnshop.
In Moscow, Russia, the pawnshop is a municipal affair. Last year over half a million articles were pawned, having a value of over \$5,000,000. It is noticed that in March and April the poor element of Moscow keeps the pawnshop busy, and during that period customarily parts with its war - overclothing.
